1.5	Version 0.3 - Workshop 2015 based on MyCoRe release 2015.11.....	8
1.6	Version 0.2 - based on MyCoRe release 2015.02.....	12
1.7	Version 0.1 - Workshop 2014.....	13

1 MIR Changelog

1.1 Version 2017.01 - Current Head

For details see maven site

1.2 Version 2016.12 - Release based on MyCoRe release 2016.12

For details see maven site

- Bug
 - [MIR-357] - person browsing - searchfield (oder mit den Zeichen) add ".*" to the string even if it (.*) already exists
 - [MIR-527] - cc:address for dc:publisher is missing in xMetaDissPlus
 - [MIR-529] - can't index documents with more than one relatedItem (mods.part)
 - [MIR-535] - File names in file browser may not be displayed completely
 - [MIR-538] - Catalog link ist missing
 - [MIR-541] - Create database schema if configured
 - [MIR-542] - Loose filter when searching after filtering search with facets
 - [MIR-550] - DOI Citation formatter delivers wrong encoded text
 - [MIR-553] - Error handling in file listing does not work in IE 11
 - [MIR-555] - epicur - format information for front page is missing
 - [MIR-559] - validate PPN in xEditor
- Task
 - [MIR-526] - Implement changes for Git-Migration
 - [MIR-530] - Update dependencies
 - [MIR-537] - Migrate MIR master to MyCoRe-Viewer-Trunk
 - [MIR-545] - update to grunt release 1.0.0
- Sub-task
 - [MIR-448] - DINI - E.1-5 add search option / filter for licenses
- Improvement
 - [MIR-539] - use more git information in MIRCoreVersion
 - [MIR-540] - Use Yarn instead of npm for mir-layout build
 - [MIR-551] - Use xalan function instead of solr request to detect mets exist
 - [MIR-552] - use i18n key for empty select option

1.3 Version 2016.06.0.1 - LTS on MyCoRe release 2016.06.0.1

- Bug
 - [MIR-76] - publication status of content will not be updated while changing in metadata
 - [MIR-242] - view attribute in mir-rights doesn't mean view atm.
 - [MIR-342] - Journal autocomplete shows wrong identifier if no issn is given
 - [MIR-359] - GND search for corporation is missing

- [MIR-360] - Roles of documents are always mapped to `mods:name[@type="personal"]` and not `mods:name[@type="corporation"]`
- [MIR-367] - person index sorts case sensitive
- [MIR-374] - uploadform don't react on upload errors
- [MIR-378] - admin editor does not allow edit of all dates (dissertation)
- [MIR-380] - Isn't possible to secure MCRObjets with access keys
- [MIR-383] - No message displayed if derivate is not hidden but user lacks read permission
- [MIR-384] - Embargo is not visible to user
- [MIR-385] - HTML title in metadata view is missing
- [MIR-387] - Set user role for self registration from property "MIR.SelfRegistration.DefaultRole" not through xeditor form
- [MIR-388] - Fix URI creation for PPN
- [MIR-389] - Sort files in metadata view
- [MIR-392] - Persists transient user if not exists
- [MIR-393] - search field "allMeta" may get to high score
- [MIR-397] - Start Wizard only on missing `mycore.properties` and/or `persistence.xml`
- [MIR-404] - `MIRDDCtoSDNBMapper` in `mods` removes origin classification entry
- [MIR-408] - host institution field might be empty when importing documents via PPN
- [MIR-415] - `solr` field `mods.relatedItem` and `mods.part` should only contain value for "this" document not of any relatedItem
- [MIR-416] - editor fields for person needs some refactoring
- [MIR-419] - Can't create document with URL and shelflocator
- [MIR-420] - upload of derivate creates new derivatives on page reload
- [MIR-422] - Wizard ignore database schema
- [MIR-423] - Contained documents title are not displayed
- [MIR-427] - OAI epicur link to ZIP download is wrong
- [MIR-431] - converting `mods:displayForm "etal"` to `mods:etal` does not work anymore
- [MIR-432] - `mods:namePart` not get changed when editing a document with a simple editor
- [MIR-453] - Can't create `mods` with institution
- [MIR-465] - download action for multiple files is missing in result list
- [MIR-466] - problems with repeater for author on some platforms
- [MIR-472] - OAI: epicur should use the derivate with an URN defined
- [MIR-474] - Invalidate read permission cache also on add accesskey
- [MIR-477] - Fix access key add for new users
- [MIR-479] - Delete wrong access key only if none is matching
- [MIR-482] - "+" button in complex search doesn't work
- [MIR-488] - Missing space between Volume and page

- [MIR-489] - SherpaRomeo doesn't work as ajax call in https running applications because it is mixed content. The sherpaRomeo api call is no https call atm.
- [MIR-493] - Change derivate label has no effect
- [MIR-494] - action menu asked every time for login
- [MIR-495] - create new document with related item disables title for related item if project id is not mir
- [MIR-496] - Click on genre or rights filter on metadata page shows no results
- [MIR-497] - html title with html-entitys are not displayed in detailview
- [MIR-502] - Video check query is incomplete
- [MIR-505] - fix bugs on search response page
- [MIR-506] - solr score / relevance is always 5 stars and title is todo
- [MIR-508] - GND search result does not show angle brackets
- [MIR-509] - Citations in citationbox are incomplete
- [MIR-510] - Can't edit article if journal has invalid issn
- [MIR-511] - mods:part needs to be multivalued in schema.xml
- [MIR-513] - Selecting main file in folder does not work right
- [MIR-515] - datacite citation formatter throws http error 406
- [MIR-517] - Autocomplete overlays datepicker in editor
- [MIR-522] - editor forms doesn't work if no mir_institutes classification is available
- [MIR-524] - Publication date is missing if information is part of host
- [MIR-525] - URN is missing in citation box
- New Feature
 - [MIR-315] - Use PPN as mods:identifier
 - [MIR-379] - GVK import: allow editor import from GVK to editor-admins.xed
 - [MIR-499] - Add session polling in editor masks and upload form
 - [MIR-523] - CSV-Export is missing
- Task
 - [MIR-79] - Cleanup differences between miless mods and MIR mods
 - [MIR-237] - add download icons for mir filetypes
 - [MIR-349] - make metadata print view usable
 - [MIR-350] - Create persistence.xml instead of hibernate.cfg.xml
 - [MIR-364] - move application specific content to mir-flatmir-layout-utils.xml
 - [MIR-365] - remove oaiabout from standard MIR
 - [MIR-382] - refactor MIRAccessKeyStrategy properties and readd possibility to disable access keys
 - [MIR-451] - quick click on repeat fields in form view caused error
 - [MIR-485] - German sub headline for error pages should be: "Das ist ein Fehler."
- Sub-Task
 - [MIR-98] - Lizenzen
 - [MIR-102] - Impact Faktoren
 - [MIR-105] - Seitenzahlen

- [MIR-435] - DINI - M.A.2-4 - OAI transient and hold information of deleted items one month
- [MIR-436] - DINI - A.2.2 Sets for DDC groups
- [MIR-437] - DINI - M.2-6 explain long-term archiving
- [MIR-441] - DINI - E.6-1 - add alternative classification
- [MIR-445] - DINI - M.A.2-3 - Sets for DINI publication types
- [MIR-449] - DINI - M.5-6 - prevent derivate changes
- [MIR-450] - DINI - M.5-9 show deletion information
- [MIR-457] - DINI - M.A.3-6 Every record contains at least one DNB subject group in a subject element, and the document is listed in that group.
- [MIR-458] - DINI - M.A.3-5 Document or publication types according to the DINI Recommendations Common Vocabulary for Publication and Document Types are assigned to all documents
- [MIR-459] - DINI - E.A.3-2 The contributor element is used and contains the name of one person or institution that was involved in the creation of the document described
- Improvement
 - [MIR-218] - html title
 - [MIR-320] - GND/VIAF input fields needs some improvements
 - [MIR-348] - Improve MIR Strategy to match typical access uses cases for repository solutions
 - [MIR-351] - search, hit list and metadata view should be usable without javascript
 - [MIR-352] - use mods:nameParts internally
 - [MIR-356] - enable less/sass usage in application ressources
 - [MIR-358] - use simple dynamic editor when appending child to lectures
 - [MIR-366] - mir-video.js.xsl should only be used if relevant content is available
 - [MIR-368] - use mods-utils.xsl in mir-solr.xsl
 - [MIR-369] - add i18n properties for missing translations
 - [MIR-371] - Add database connection pooling via HikariCP
 - [MIR-373] - use chevron icons instead of burger button for "more options" in editor masks
 - [MIR-375] - Add standart ACLs for Classifikationeditor and ACL Editor
 - [MIR-376] - GVK import: add GND identifier to mods:name
 - [MIR-377] - GVK import: map DDC to SDNB
 - [MIR-386] - Use new possibilities from MCRMODSEmbargoUtils
 - [MIR-394] - title translated should be repeatable
 - [MIR-396] - add param for dateRange-input, so only Rangeinput is displayed
 - [MIR-399] - Use responsive design for derivate file list
 - [MIR-401] - unify pagination in MIR and make it more responsive
 - [MIR-402] - use label x-uri from classifications instead of hard coded URI
 - [MIR-403] - Use mycore-pi for DOI registration
 - [MIR-405] - "/find" Solr request handler should use standard query parameter "q"
 - [MIR-407] - allow origin for project id also as URL parameter in xeditor

- [MIR-421] - Display details on http error code
- [MIR-428] - use x-uri from classification
- [MIR-434] - map mir_genre to marcgt
- [MIR-452] - Improve xmetadissplus - dateaccepted, thesis:degree, frontpage
- [MIR-454] - add mapping mir_genere -> XMetaDissPlusThesisLevel
- [MIR-455] - use URN as citation link if document has an URN
- [MIR-461] - make changing main document a ajax call
- [MIR-462] - add "save as zip" option to derivate actions
- [MIR-463] - add DFG-Viewer link and logic
- [MIR-464] - Don't display generated classifications in detailview
- [MIR-467] - Add video.js HLS Source Handler
- [MIR-468] - PPN import sometimes makes REST requests to the same mir instance
- [MIR-469] - Drop IE8 support for video.js
- [MIR-470] - OAI: use update_status 'url_update_general'
- [MIR-471] - load openstreetmap only if someone opens it
- [MIR-473] - Use a Fallbackpublisher for XMetaDissPlus, if no publisher was stored in metadata.
- [MIR-475] - mods:relatedItem of type references should be displayed and linked
- [MIR-476] - link relatedItems to existing documents or create documents, when importing with PPN
- [MIR-483] - article groups should be by year
- [MIR-484] - add all hits on page to basket
- [MIR-486] - Send more info's for self-registered users
- [MIR-491] - improve mods_nameIdentifier search
- [MIR-492] - Add possibility to add or change a GND for a Topic
- [MIR-500] - improve relatedItem search in admin editor
- [MIR-501] - Don't check permissions within accesskey resolver
- [MIR-503] - The script derivate-fileList.js should handle errors.
- [MIR-504] - Add Admineditor to contextmenu in detailview
- [MIR-507] - preserve pagination while adding object to basket
- [MIR-512] - change PPN import format to mods36, for better compatibility
- [MIR-516] - Add possibility to sort child documents in metaview
- [MIR-519] - prevent selection of multiple hosts and multiple related Items with the same ID
- [MIR-520] - Add series volume number also to solr index
- [MIR-521] - Integration tests should run on remote ESR Firefox and local current Firefox

1.4 Version 0.4 - based on MyCoRe release 2016.02

- Bug

- [MIR-127] - repair bootswatch variable usage to bring bootswatch themes back to work
- [MIR-230] - selenium findElement(By.id("loginURL")) failes
- [MIR-255] - relatedItem autocomplete fill operation is not reliable
- [MIR-262] - Wizard doesn't show all installation log output since log4j2 update
- [MIR-275] - relatedItem autocomplete does not work correctly with some genre editors
- [MIR-283] - Title of lecture not stored when creating course material
- [MIR-284] - When creating course material type of ressource not stored
- [MIR-286] - Cannot save object (dissertation) after import over ppn
- [MIR-287] - Thumbnails and viewer of 'PDF' does not show up
- [MIR-289] - do not show accessCondition if empty
- [MIR-305] - multiple term search gets too many results
- [MIR-322] - edit object with person with gnd - the gnd badge is not displayed
- [MIR-324] - site reload after select a person
- [MIR-325] - broken gnd-link in the badge of person search
- [MIR-326] - actionmapping.xml contains invalid characters in URLs
- [MIR-327] - I18N Key Missing: ???
component.mods.metaData.dictionary.identifier.oclc???
- [MIR-330] - wrong identifier gets selected when editing some imported documents
- [MIR-333] - search on hitlist ignores current filter / search params
- [MIR-334] - create a new user causes an exception in userExists (MirSelfRegistrationServlet)
- [MIR-338] - MIRAccessKeyStrategy shouldn't allow access to objects if user haven't a access key
- [MIR-339] - Performance on metadata view is too slow
- [MIR-341] - editor - wrong use of mods:subject/mods:topic, need refactoring relation subject to subjectgroup
- [MIR-343] - relItemSearch ignores required attributes
- [MIR-345] - child link in meta view does not work
- [MIR-347] - ImageWare ACL check requests permission instead of POOLPRIVILEGE
- New Feature
 - [MIR-306] - add xmetadissplus as OAI output format
- Task
 - [MIR-59] - enhance classification mapping for mods
 - [MIR-78] - refactor metadata view
 - [MIR-155] - beautify new html5 file upload
 - [MIR-259] - show action menu also if not logged in
 - [MIR-272] - move xeditor form scripts to separate file
 - [MIR-276] - add copy functionality
 - [MIR-280] - refactor derivate usage in metadata, read file only once

- [MIR-281] - refactoring upload form
- [MIR-291] - add PICA3 as export format
- [MIR-298] - add xmetadisplus as OAI output format
- [MIR-300] - In detailview display action button next to cardbutton.
- [MIR-311] - use attribute type for mods:note managed by classification
- Sub-task
 - [MIR-312] - MIR.ImageWare.requiredIdentifier doesn't support only PPN
 - [MIR-313] - rename zip package to ppn
 - [MIR-314] - show export button only for specific categories in mir_rights
 - [MIR-318] - multiple player windows
 - [MIR-323] - users other than superuser doesn't have permission to create package
- Improvement
 - [MIR-74] - add version info to system info panel in metadata view
 - [MIR-146] - refactor forms (search form and editor forms)
 - [MIR-170] - add zdbid import from mods component
 - [MIR-253] - update xeditor forms
 - [MIR-271] - add xeditor fields for start and end date
 - [MIR-274] - hide genre categories with x-editor="false" when no child categories available
 - [MIR-288] - show children as tree and with volume, issue or chapter, ordered by date issued
 - [MIR-290] - required select fields shouldn't be selected per default
 - [MIR-294] - Classification labels should be used instead of i18n properties
 - [MIR-299] - hit return in related item search leads to internal server error
 - [MIR-307] - allow application urns also in metadata
 - [MIR-309] - add about section to OAI record
 - [MIR-310] - MIRSwordIngester should use MCRSwordMediaHandler to handle files
 - [MIR-316] - viewer in metadata page - disable mini overview and fit document width on startup
 - [MIR-319] - add special page for deleted or blocked documents
 - [MIR-321] - Add information message after editing metadata
 - [MIR-335] - If a video is protected by securetoken it should be opened in integrated player (for all users that are not editors or admin -> acl).
 - [MIR-340] - File listing in metadata view should use REST-API of MyCoRe

1.5 Version 0.3 - Workshop 2015 based on MyCoRe release 2015.11

- Bug
 - [MIR-116] - on metadata page containing information is missing if type is series etc
 - [MIR-120] - mir should use mycore state classification
 - [MIR-141] - fix classification browser headlines, remove <label />

- [MIR-145] - include breadcrumb into cosmol
- [MIR-150] - Setup does not load classifications
- [MIR-154] - MIR wizard throws InitializerError because of access check in MCRStaticXMLFileServlet
- [MIR-163] - we use different bootstrap/bootswatch versions, configuration must be simplified
- [MIR-165] - mir:role.repeated can't be used twice in one MIR editor
- [MIR-166] - register form allows special characters in user login
- [MIR-167] - validation message hover doesn't work
- [MIR-169] - PPN usage leads to mods schema errors
- [MIR-171] - Search via badges doesn't use state filter
- [MIR-179] - importing data from gvk into mir incorrect in some cases
- [MIR-192] - can't create new derivate if URN exists
- [MIR-196] - No Form fields for genre "picture"
- [MIR-197] - ACL rule "require login" doesn't work with MIRStrategy
- [MIR-205] - Support all bootswatch themes
- [MIR-213] - MIRViewerConfigurationStrategy throws MissingFormatArgumentException when MIR.CustomLayout.JS is set
- [MIR-222] - layout for validation messages creates invalid html
- [MIR-223] - MIR throws Too many activate() calls
- [MIR-224] - metadata view doesn't show files within directories
- [MIR-225] - can't delete files within directory using MCRDerivateServlet
- [MIR-226] - mcr:categId don't work
- [MIR-231] - validation failes in admin editor
- [MIR-235] - search in person browsing doesn't work properly
- [MIR-236] - searchfield mods.name contains date information
- [MIR-239] - GND for name type=corporate isn't resolved
- [MIR-240] - author role is shown in basket view
- [MIR-247] - using mods:name with classification support leads to NPE
- [MIR-249] - GND search doesn't works with https://lobid.org
- [MIR-250] - show dateIssued badge only if available
- [MIR-263] - Permission for creating classification is create-class
- [MIR-264] - child document creation via sub menu failes
- [MIR-266] - move all fileupload files to common-resources
- [MIR-267] - Exclude servlet-api 2.4 from mycore-sword
- New Feature
 - [MIR-161] - add possibility to define restrictions on derivate access
 - [MIR-188] - Allow ACL checks for derivate against categories of owning document
 - [MIR-198] - Implement access keys which acquires permissions to read and/or write of MCRObjekt or MCRDerivates
 - [MIR-202] - Add support for research data
 - [MIR-220] - Add support to link documents to any classification

- [MIR-265] - Sword2 implementation for MIR
- Task
 - [MIR-118] - add acl rules for admin-editor etc. and fix spelling of "guest"
 - [MIR-122] - intergrate video.js into metadata view
 - [MIR-140] - implement subselect for related items (like host, series ...)
 - [MIR-172] - make cosmol header responsive
 - [MIR-183] - add facets in result list for all searches
 - [MIR-187] - Increase default limit of fileupload to 4GB
 - [MIR-203] - show publication state on hit list
 - [MIR-209] - provide an URI resolver to get information if access key exists
 - [MIR-210] - define form fields for new genres teaching_material, lecture_resource ...
 - [MIR-211] - add generic editor template for classifications
 - [MIR-227] - need consistent version management for bootstrap, jquery and fontawesome
 - [MIR-229] - Upgrade to Log4J 2.x
 - [MIR-233] - upgrade typeahead to version 0.11.1
 - [MIR-234] - change editor organization to publisher organization and make it searchable
 - [MIR-241] - Use eventType="publish" for originInfo
 - [MIR-243] - date picker for the editor
 - [MIR-246] - refactor ppn import
 - [MIR-261] - Refactor result list
- Sub-task
 - [MIR-81] - structure
 - [MIR-82] - metadata
 - [MIR-83] - def.modsContainer
 - [MIR-85] - Titel
 - [MIR-86] - Titel abgekürzt
 - [MIR-87] - Personennamen
 - [MIR-88] - Körperschaften
 - [MIR-89] - Erscheinungsland
 - [MIR-90] - Erscheinungsjahr
 - [MIR-91] - Sprache
 - [MIR-92] - Signatur der UB
 - [MIR-93] - Links
 - [MIR-94] - Abstract
 - [MIR-95] - DNB Sachgruppen
 - [MIR-96] - Stichworte
 - [MIR-97] - TypeOfResource
 - [MIR-99] - Embargo
 - [MIR-100] - Status
 - [MIR-101] - Konferenzen

- [MIR-103] - 2. Quelle
- [MIR-104] - "Erscheinungsort" Report
- [MIR-106] - Heft
- [MIR-107] - Jahrgang des Artikels
- [MIR-108] - Patente
- [MIR-109] - Sendungen
- [MIR-111] - Verknüpfung parent/child
- [MIR-129] - metadata boxes shouldn't be in a hard grid layout
- [MIR-159] - mods:subject
- [MIR-176] - file list and containing objects looks different to the other metadata blocks
- [MIR-177] - move action and basket menu down to label block
- [MIR-178] - If object is in basket, show 'remove from basket' instead of no button
- [MIR-180] - add help icon and messages
- [MIR-181] - group editor fields with div id="", which repeated together
- [MIR-191] - add missing fields
- [MIR-193] - add mods:nonSort to title
- [MIR-194] - use <rights>-section in mycoreobject xml
- [MIR-207] - put info button and repeater button in one grid column
- [MIR-214] - autocompletion for relatedItem in dynamic editor
- [MIR-232] - Log4J2 logger output isn't configured for CLI
- [MIR-257] - create a derivate edit form for MIR
- [MIR-268] - add required attribute to formfields
- Improvement
 - [MIR-2] - prompt for confirmation deleting files
 - [MIR-52] - extend MCRMODSInheritanceManager.java
 - [MIR-131] - open left side menu in cosmol dependent on screen resolution
 - [MIR-132] - update default urn resolver (dnb germany)
 - [MIR-133] - URN should be presented readable in metadata view
 - [MIR-134] - left side menu should stay toggled after click on link
 - [MIR-135] - add possibility to add user defined javascript
 - [MIR-136] - separate javascript where possible into an external file
 - [MIR-137] - use label 'x-hosts' from mir-genre classification for objectActions
 - [MIR-138] - use ppn import from mycore-mods
 - [MIR-139] - for better layout development we need more fine granular watch tasks
 - [MIR-142] - check layout stylesheets for core functionality and move them to mycore if needed
 - [MIR-143] - include datacite functionality
 - [MIR-144] - provide citation formatting functionality
 - [MIR-147] - refactor basket/bookmark menu and page
 - [MIR-148] - beautify login/user menu
 - [MIR-149] - include GND/VIAF search also for organisations

- [MIR-152] - sort result list by score and dateIssued
- [MIR-157] - provide a possibility to create metadata for conference, course etc.
- [MIR-158] - add possibility to enter rights holder
- [MIR-173] - add start-link to left side menu in cosmol
- [MIR-174] - refactor hit list
- [MIR-175] - add possibility to disable filter options and make them more responsive
- [MIR-182] - owner should find his documents
- [MIR-184] - show altmetrics in citation box
- [MIR-185] - layout fine tuning
- [MIR-186] - add an OpenAIRE-Compliant configuration
- [MIR-189] - use webjars for jquery and bootstrap
- [MIR-190] - refactor index.jsp
- [MIR-195] - enable google sitemap
- [MIR-199] - Not all searches shows creators publications
- [MIR-200] - add possibility to define ACLs for adding new URN
- [MIR-201] - Can't find token for MIR-Wizard in log
- [MIR-208] - form select doctype
- [MIR-219] - enhance person name information
- [MIR-228] - Wizard should use port from current webapplicationserver
- [MIR-248] - provide submit template for new CreateObjectAppendDerivateServlet
- [MIR-252] - Support <etal /> from MODS 3.5
- [MIR-254] - use project id property for new object id in xeditor

1.6 Version 0.2 - based on MyCoRe release 2015.02

- Bug
 - [MIR-1] - using mir.war -> tomcat shutdown doesn't stop all processes
 - [MIR-64] - show GND link only for the first author in list
 - [MIR-65] - empty action menu after URN generation and no URN is shown
 - [MIR-66] - Can't delete single file in derivate
 - [MIR-72] - link in wf mail isn't clickable
 - [MIR-73] - content of comments field in metadata is missing
 - [MIR-75] - embargo filter creates wrong mycore xml for derobjects
 - [MIR-77] - create article throws array out of bounds exception
- Improvement
 - [MIR-67] - institution browser doesn't work
 - [MIR-71] - don't show system information to guest users
 - [MIR-113] - dynamic editor -> param standalone default
