

# Team

## The MyCoRe team from A to Z

This list makes no claim to be complete. Many others contributed with tests, bugfixes, proposals and application development. If you have a question regarding a specific function of MyCoRe, you can **directly** contact one of the developers listed here. Alternatively, or for general information on MyCoRe, you can get in contact with the [MyCoRe Office](#) (support/office.html) .

---

### Matthias Eichner

Friedrich-Schiller-Universität Jena, Thüringer Universitäts- und Landesbibliothek  
matthias.eichner (at) uni-jena.de, Tel. 03641 / 94 - 0027

- Classification editor
- WCMS
- Application development in Jena

### Stefan Freitag

University of Leipzig, Computer Center  
freitag (at) rz.uni-leipzig.de, Tel. 0341 / 97 33310

- METS/MODS Component
- Zoomify Integration
- Application development in Leipzig

### Silvio Hermann

Friedrich-Schiller-University Jena, University Library  
s.hermann (at) uni-jena.de, Tel. 03641 / 94 - 0019

- OAI
- Import tools for MyCoRe/Docportal (SRU, Opac and Pica+)
- METS/MODS Components
- Application development

### Kathleen Neumann

GBV Common Library Network (VZG)  
kathleen.neumann (at) gbv.de

---

- Application development
- Documentation

### **Jens Kupferschmidt**

University of Leipzig, Computer Center  
kupferschmidt (at) rz.uni-leipzig.de, Tel. 0341 / 97 33348

- User system
- Commandline tools
- Simple Workflow
- Multiple languages
- Coordination of DocPortal
- Distribution
- Application development in Leipzig

### **Frank Lützenkirchen**

University of Duisburg-Essen, University Library  
luetzenkirchen (at) ub.uni-duisburg-essen.de, Tel. 0201 / 183 - 2124

- **Head of MyCoRe architecture board**
- Query framework (search functionality)
- Internal filesystem (IFS) and file upload
- Editor framework (creation of search masks and input forms)
- Integration of Audio/Video streaming servers
- Persistent identifier (urn:nbn:de support)
- Application development „DuEPublico“ (Institutional content repository software)

### **Dr. Wiebke Oeltjen**

University of Hamburg, Computer center  
wiebke.oeltjen (at) rrz.uni-hamburg.de, Tel. 040 / 42838 - 2652

- **MyCoRe Office**
- Application development

### **Thomas Scheffler**

Friedrich-Schiller-University Jena, University Library  
thomas.scheffler (at) uni-jena.de, Tel. 03641 / 94 - 0027

- Application development „Collections@UrMEL“ (collections and archives)

## Team

- Filters for text extraction (fulltext search in PDF, Word, OpenOffice etc.)
- Internationalization and multi-language support (I18N)
- IBM Content Manager backend integratoin
- Classification browser and editor
- Webinterface for user management
- XSL
- URI-Resolver

### **Robert Stephan**

University of Rostock, University library  
robert.stephan (at) uni-rostock.de, Tel. 0381 / 498 86 25

- Application development JSPDocPortal
- OAI-PHM 2.0 Data Provider

### **Nils Verheyen**

University of Duisburg-Essen, University Library  
nils.verheyen (at) uni-due.de, Tel. 0201 / 183 - 2134

- SWORD-Interface
- Statistics
- Application development „DuEPublico“ (Institutional content repository software)

### **Huu Chi Vu**

Friedrich-Schiller-University Jena, University Library  
huu.chi.vu (at) uni-jena.de, Tel. 03641 / 94 - 0019

- Application development of the journal server „Journals@UrMEL“
- Classification Editor
- ACL Editor
- Imaging Modul
- IFS2

### **Alumni**

They contributed much, but are currently not involved in further development:

- Dr. Detlev Degenhardt (Albert-Ludwigs-University Freiburg, Computer center )  
User and group management, Application development Freimore
- Heiko Helmbrecht, Arne Seifert, Matthias Kramm (TU München):  
ACL system, Hibernate- and SQL-backend, OAI interface

- Dr. Stefan Gradmann (University of Hamburg, Computer Center)  
Coordination of the MyCoRe/IBM cooperation
- Werner Greßhoff, Benno Süselbeck (ULB Münster):  
OAI interface, URN implementation, permission management
- Kerstin Ponten (University of Duisburg-Essen, University Library):  
Assistance for the MyCoRe Office, Tests
- Harald Richter (University of Duisburg-Essen, University library):  
Lucene implementation of query functions, Web services (SOAP), Z39.50 interface,  
Application development
- Anja Schaar (University of Rostock, University library)
- Andreas Trappe (Friedrich-Schiller-University of Jena, University library)  
Image Viewer module, WCMS modul, Application development
