

Team

The MyCoRe team from A to Z

This list makes no claim to be complete. Many others contributed with tests, bugfixes, proposals and application development. If you have a question regarding a specific function of MyCoRe, you can **directly** contact one of the developers listed here. Alternatively, or for general information on MyCoRe, you can get in contact with the [MyCoRe Office](http://support/office.html) (support/office.html) .

Stefan Freitag

University of Leipzig, Compute Center
freitag (at) rz.uni-leipzig.de, Tel. 0341 / 97 33310

- METS/MODS Component
- Zoomify Integration
- Application development in Leipzig

Jens Kupferschmidt

University of Leipzig, Compute Center
kupferschmidt (at) rz.uni-leipzig.de, Tel. 0341 / 97 33348

- User system
- Commandline tools
- Simple Workflow
- Multiple languages
- Coordination of DocPortal
- Distribution
- Application development in Leipzig

Frank Lützenkirchen

University of Duisburg-Essen, University library
luetzenkirchen (at) ub.uni-duisburg-essen.de, Tel. 0201 / 183 - 2124

- **Head of MyCoRe architecture board**
 - Query framework (search functionality)
 - Internal filesystem (IFS) and file upload
-

- Editor framework (creation of search masks and input forms)
- Integration of Audio/Video streaming servers
- Persistent identifier (urn:nbn:de support)
- Application development DuEPublico (Institutional content repository software)

Dr. Wiebke Oeltjen

University of Hamburg, Computer center
wiebke.oeltjen (at) rrz.uni-hamburg.de, Tel. 040 / 42838 - 2652

- **MyCoRe Office**
- Application development

Thomas Scheffler

Friedrich-Schiller-University Jena, University library
thomas.scheffler (at) uni-jena.de, Tel. 03641 / 94 - 0027

- Filters for text extraction (fulltext search in PDF, Word, OpenOffice etc.)
- Internationalization and multi-language support (I18N)
- IBM Content Manager backend integratoin
- Classification browser and editor
- Webinterface for user management
- XSL
- URI-Resolver

Robert Stephan

University of Rostock, University library
robert.stephan (at) uni-rostock.de, Tel. 0381 / 498 86 25

- Application development JSPDocPortal
- OAI-PHM 2.0 Data Provider

Alumni

They contributed much, but are currently not involved in further development:

- Dr. Detlev Degenhardt (Albert-Ludwigs-University Freiburg, Computer center)
User and group management, Application development Freimore
- Heiko Helmbrecht, Arne Seifert, Matthias Kramm (TU München):
ACL system, Hibernate- and SQL-backend, OAI interface
- Dr. Stefan Gradmann (University of Hamburg, Computer Center)
Coordination of the MyCoRe/IBM cooperation

Team

- Werner Greßhoff, Benno Süselbeck (ULB Münster):
OAI interface, URN implementation, permission management
- Kathleen Krebs (University of Hamburg)
Project coordination, documentation, IBM Content Manager backend integration,
Application development
- Kerstin Ponten (University of Duisburg-Essen, University Library):
Assistance for the MyCoRe Office, Tests
- Harald Richter (University of Duisburg-Essen, University library):
Lucene implementation of query functions, Web services (SOAP), Z39.50 interface,
Application development
- Anja Schaar (University of Rostock, University library)
- Andreas Trappe (Friedrich-Schiller-University of Jena, University library)
Image Viewer module, WCMS modul, Application development
